

# Gnome 2

## Professional pocket digital stereo voice recorder

Gnome-2 is designed to achieve the best performance possible when recording in real-life noisy environments.

# Gnome 2 Quality

- ✓ Records conversation with extremely high quality with or without compression
- ✓ High recording quality achieved due to 24 bit ADC (analogue-to-digital converter), and highly sensitive microphones.
- ✓ The Signal to Noise Ratio (SNR) is up to 72 dB

# Gnome 2 Storage

- ✓ Stores data on Compact Flash memory cards.
- ✓ Easy and fast PC download using a CF adaptor.
- ✓ Recording time using 512 MB Compact Flash card is up to 23 hours:
  - (6 kHz/LP/Mono – 23 hours)
  - (8 kHz/HQ/Stereo – 4,5 hours)
  - (16 kHz/HQ/Stereo – 2 hours)
  - Other settings for recording quality are also possible

# Gnome 2 Security

- ✓ 8 digit PIN-code and strong audio data encryption.
- ✓ Protected from jamming and detection with specialized equipment.
- ✓ Slim and rugged metal case of 115 x 55 x 15 mm.  
The weight is 132 g.

# Gnome 2

- ✓ Rich functionality with lots of settings via an easy-to-use interface
- ✓ Gnome 2 supplied together with PC software to configure some features and move recorded data

# Gnome 2 Features

- ✓ Recording can be activated by voice activation, manually or with 5 embedded real-time timers
- ✓ Voice activation is easily adjusted by means of graphical user interface

# Gnome 2 Applications

Gnome-2 is used by the organizations needing high quality mobile recording, such as:

- ✓ **Police and other Law Enforcement Agencies:** Recording during special operations and inside police patrol cars.
- ✓ **Security companies:** Recording inside cash-in-transit vans and other recording applications for safety reasons.
- ✓ **Emergency services (fire, ambulance, rescue):** Rescue operations tracking and recording inside rescue vehicles.
- ✓ **Legal practices and institutions:** Recording of important conversations.
