

Map Datasets

European Datasets

Full street level map datasets supplied by HTSI mapping partner TeleAtlas. Includes Gazetteer data for generation of text location reports.

HTSI can provide map datasets for the following countries:

Small countries: Czech Republic, Finland, Ireland, Norway, Portugal, Sweden

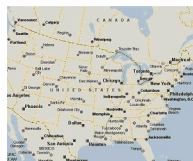

Large Countries: Austria, Benelux, Denmark, France, Germany, Holland, Italy, Spain, Sweden, Switzerland, UK (GB Mainland plus Belfast)

In addition to vector digital map datasets from TeleAtlas, HTSI can source suitable aerial maps and SPOT Images for most countries in various levels of detail.

The HT Viewer Map Engine can also support maps in multiple formats allowing end users to supply their own for integration into CP2 / HT Viewer

North American Datasets

Full street level map datasets supplied by HTSI mapping partner TeleAtlas. Includes Gazetteer data for generation of text location reports.

HTSI can provide street level map datasets for all of North America or on a state by state basis.

Worldwide Datasets

HTSI have agreements with a number of specialist map suppliers and can provide detailed digital maps of most locations. Includes Gazetteer data for generation of text location reports.

Please contact your local HTSI Distributor for details.

Spot Images

HTSI can provide SPOT images and aerial photography fully geo-referenced for integration into the HTSI Map Engine. Useful for supplementing high level digital

Building Level Map Datasets

Via our TeleAtlas partnership HTSI can provide over 30 European Cities and 10 USA Cities at building level details. Please contact your local sales office for details.
