

Helping investigators in the field to track targets

**Additional application
of DeveryLoc
to be downloaded (free)
on smartphones and tablets.**

- Enables to track all mobile phones upon judicial requisition and/or beacons from one or several DeveryLoc accounts.
- Aims at assisting field investigators to get in real time their own locations, those of their colleagues and those of the target(s) so as to improve the coordination of an ongoing action plan.
- Displays target-related events that occurred (entry in an area, movement, stopping...).
- Compatible with iOS iPhone versions 4 and +, iPad 1 & 2, Android* smartphone.

(*soon)

Built-in security

- Real-time data are encrypted.
- All traces are erased after disconnection from the device used.
