

Securing your organisation

Detica provides a full range of security and risk services, such as:

- policy and standards definition and audit
- supporting business change programmes
- delivery of systems designed to reduce risk, including fraud
- evaluating emerging technologies
- designing and testing business continuity plans

Detica was named as the UK's No.1 Information Security Consultancy by The Industry Research Group in 2001 and 2002.

Our pedigree is built on over 30 years experience of providing independent advice to some of the most secure parts of government and to commercial clients. We are fully BS7799 certified and many of our consultants are CLAS and CISSP practitioners.
