

# EXFO HOMELAND SECURITY

Instant insight into who, where and when

Today's security threats are mobile. However, with EXFO's communication intelligence solutions, such threats can be quickly detected and eliminated. Our product portfolio includes portable units with intuitive, easy-to-use GUIs that give the user the speed and accuracy needed to conduct investigations on the move.

Given our extensive expertise in 2G, 3G and 4G network technologies, we deliver solutions for:

- › Network signal analysis
- › Mobile interrogation
- › Direction finding
- › Mobile interception on the move

## Our current product offer includes

**NetHawk F10** IMSI catcher with DF, area surveillance, mobile service blocking and interception capabilities in portable and vehicular forms

**NetHawk C2** Cell scanning and catcher detection in inconspicuous pocket size

**NetHawk X6** Quick field-deployable WCDMA networks

## About EXFO

Listed on the NASDAQ and TSX stock exchanges, EXFO is among the leading providers of next-generation test and service assurance solutions for the global telecommunications industry.

Leveraging years of experience in protocol testing and wireless network simulation, the Homeland Security division is dedicated to developing quality tools for government agencies and law enforcement.
