

Caesar

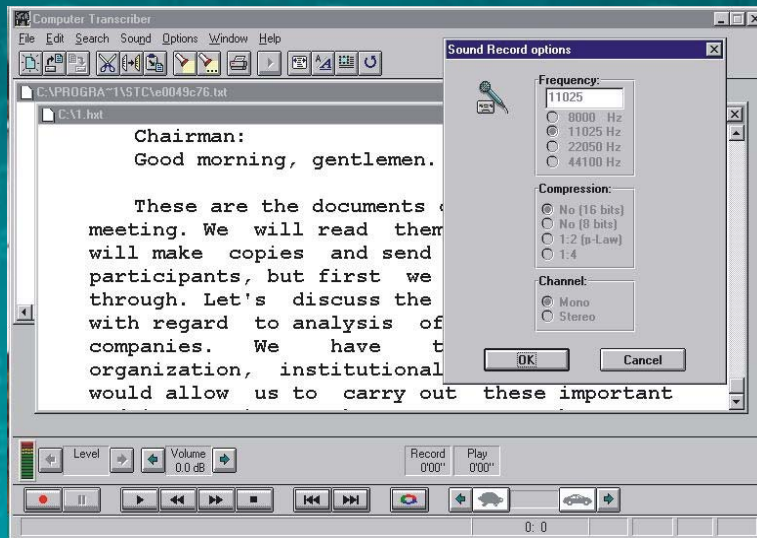

Caesar

- Caesar is a PC application which greatly increases efficiency of speech transcription
- Combines the functionality of a text editor with audio playback and digital recording
- Caesar saves time and effort to any organization for production of transcription

Caesar Common Uses

Transcription of:

- ✓ Interviews
- ✓ Court sessions
- ✓ Medical Notes
- ✓ Meetings
- ✓ Negotiations
- ✓ Forums

Caesar Common Uses

Caesar widely used by:

- Documentation departments, assistants and secretaries.
- Police, security authorities, private security organizations.
- Journalists and news agencies.
- Courts and Legal institutions.
- Medical organizations.

Caesar Features

- ✓ Full control over sound playback by hot keys.
- ✓ STC's Sound Stretcher technology used to change speech playback speed without distorting voice pitch. Acceleration/slow-down rate is up to 3 times from original. Smooth rate adjustment.
- ✓ Loop mode allows working with hard to understand speech fragments.

Caesar Features

- ✓ Caesar automatically links the speech and the text providing the way to easily find the corresponding speech fragment.
- ✓ Substantial improvement in the work rate even for experienced transcriptionists.

Caesar Overall Advantages

- Speed & Productivity
- Precision
- User Friendly
- Archiving linked Speech & Text
